Welcome to Concrete Confidence-Mental Strength And Attitude Alignment Series

Get ready to just make yourself comfortable and shut your eyes now... let your hands lie loosely in your lap... or at your side if that's easier... just be comfortable and relax your entire body as much as you are able to... now I want you to take a deep breath and hold it for a minute before exhaling slowly... just letting your whole body relax as you do ... and I want you to keep your eyes shut now and just keep listening restfully to the sound of my voice... and as you're listening to the sound of my voice, I want you to center for a moment on your breathing... breathing slowly and steady and evenly... and as you exhale each time, just letting your whole body relax more and more... so that you gradually find yourself feeling like your whole body was settling further and further into the chair with each breath you breathe...

and just the thought of breathing and unwinding makes you feel as though you're sinking down... 5 Sinking deeper.... 4... and

each breath makes you feel more at ease.... 3 and with every breath you feel yourself going deeper and deeper... more relaxed.... 2.... down once more..... breathing softly... Releasing.... and 1.... Completely relaxed.....

Now I'm going to ask you to think of a peaceful, protected place... You are able to feel the warmth of the sun on your head and shoulders... get in tune with your surroundings in this place.

While you are safe and protected you are standing at the top of a hill. When you look down the hill you are able to see a narrow, twisting path that melts into a small forest...

And beyond the forest you are able to see the ocean... you begin to move easily down the path, and you just catch the faint smell of flowers on the breeze...

The sparkling waters call you closer, calming your spirit and you begin to recognize a reflection that you see there. The reflection that is gently rising to the surface is your own.

The image of yourself rises to the top of the waters to show you a reflection of power and self confidence. You feel as if you have never seen this particular image before. This image of you is vivid, strong, confident, self assured and decisive. You are able to recognize that this image is your true self.

As this image is so clear the feelings of rejuvenation, empowerment and vigor wash over you and remind you that you have the ultimate power of choice...

To see yourself in this new light. You are able to choose to see the true you that holds self confidence and self trust and not feel afraid.

When you are ready and feel as if you want to embrace this powerful self image, do not be afraid to let it become one with you. As you lightly brush the top of the cool sparkling water, each ripple that is sent out is another wave of your confident self

moving into your very being, fusing with your being. You begin to feel the mighty energy of a renewed self.

Having allowed your confident self to renew your body you are able to now access this inner power at any time you choose to bring about the success, abundance and happiness that you deserve.

You will notice that your actual physical self is ready to spring into action the moment you call upon it. You will also feel a new sense of clarity in your mind and will know that there are no longer the boundaries of self imposed limits.

As you now know that you are self confident, have integrity and are self assured, you are able to allow the statements of success for your life move in to give you yet more self assuredness.
