

Prop Builders

So you've spent 3 months making props and decorations for your party. It's time you rested. Here's a cute game that gets your guests competing to make an original, scary scene using a selection of materials given to them by you. Just make sure you buy multiples of each item so every team has the same kit to keep it fair (they don't have to look exactly the same, but they should be equipped with the same TYPE of item).

Kits can include old clothes, skeletons, mannequins, body parts, Halloween make-up, fake blood, fake knives, fake hatchets, tape, staplers, wigs, plastic animals, paper, markers...anything that you can think of.

Game Play

1. Pick an area in your yard or house for building the scenes and hand out a prop kit to each team.
2. Set a time limit, let the teams go and start timing. The goal is to see who can put together the scariest, most original scene using what they have.
