

# Pass It One Ghost Story

Turn off or dim all the lights and have all your guests sit in a circle. Start out by holding a flashlight so it illuminates your face and start telling a ghost story. At an exciting point in the story, pass the flashlight to the person on your left. They can then continue the story where you left off. Keep going for as long as you choose, it can be once around the circle or even longer. You can also set a timer for each person.
